Our Team

This year, Skyline Chess Club has a team consisting of 3 USCF-rated 2100 players, with over 10 tournament-level players. We have been playing chess since elementary school, and would like to inspire the new generation of chess players to continue playing throughout their lives. With our passionate and capable members, we would like to use this tournament to help young players improve and enjoy chess. So, our club's top players will be offering FREE in-person and email analysis for every single game played in this tournament, along with suggestions for improvement. Additionally, we will have a fun simultaneous exhibition featuring our 2100-rated players!
