NOTES BY MANNEY

FROM THE PAGES OF TIME

MONTE CARLO 1903

The third International Tournament held at Monte Carle was an extremely strong one, notwithstanding the numerous and notable absentees. These included the World's Champien Dr. Em. Lasker, Napier Blackburne, Schieffers and Burn. The fourteen players finished as follows:

Dr. Tarrasch	20	Mieses	13
Mareczy	19	Marshall	12
Pillsbury	18분	Taubenhaus	102
Schlechter	17	Mason	10=
Teichman	16분	Albin	8
Marco	15분	Reggio	7월
Wolf	14	Col. Moreau	0

A double round was played, five days a week, seven hours a day and a time limit of 16 moves per hour. The prizes were generous, probably due mainly to Prince Dadian of Mingrelia, who was president of the tourney committee.

Although Dr. Tarrasch won, his victory was neither everwhelming nor decisive. He made a splendid showing against the weaker opponents but was not impressive against the leaders.

The United States master Harry N. Pillsbury was awarded a brilliancy prize 10 the following game:

QUEEN'S GAMBIT DECLINED

	WHITE		BLACK
	Pillsbur		Wolff
2	7-Q4	1	P-Q4
- 1	P-QB4	2	P-K3
1	Kt-QB3	3	Kt-KB3
	B-Kt5	4 -1	QKt-Q2
	Kt-B3	41 5 1	B-K2
	P-K3	6	Castles
	R-B1	7	P-QN3
	PxP	8	ExP
<u></u>	Kt-K5	9	B-K+2
	P-B4	10///	P-QR3
	B-Q3	11	P-B4
	PAGE 3		FILM

Castles	12	P-B5	a
In order to	establish	a pawn majority o	r
the Queen's	wing, the	disadvantage 1 in	g
that it gi	ves White	an opportunity t	0
pursue agg	ressive tac	tics on the King!	8
side. PxP f	ollowed by	Kt-K5 was probabl	y
better.			1

B⇔B5	13	P-Kt4
R-B3	14	R-K1
R-R3	15	P-Kt3
B-Ktl	16	KtxKt
BPxKt	17	K+-02

Better was Kt-K5. Black entirely underrates the opponent's attack, which seen becomes overwhelming.

BxB	18	RxB
Q-B3	19	Kt-Bl
R-B1	23	2-02
Q-B6	21	P~Kt5

The King's side was too seriously endangered to permit a counter attack on the Queen's wing. The move proves disastrous for it enables White to play Kt-R4, followed by Kt-B5.

Kt-R4	22	Q-B2
Kt-B5	23	B-B1
R-R6	24	P-R4
R-B4	25	R-Kt

The intention is to centinue R-Kt3 in order to dislodge the adverse Queen. It has been delayed too long and White now ins brilliantly with BxP

BxP 26 R-Kt3
He could not play RPxB or BPxB for Q-RS,
or QxKt mate would have followed. Nor
was KtxB available, for RxKt ch and R-R4
would have won for White.

QxR(Kt6) . 27

Here Pillsbury missed a more brilliant continuation, I. E.: Kt-K6, which would have forced a mate in five moves.

Had he played QxQ White would have continued BxRPch. and RxQ.

The capture of the Rock would have hastened defeat. Pakt and R-R5 would follow

R-B1	29	B-K3
Q-Kt5	30	K-R1
Q-R5	31	Kt-Bl
KtxB	32	RxKt

RxR 33

If now KtxR, White answers RxP attack-

ing the Queen and threatening mate.

Kt-Kt2 would not be available on account
of R-B8 mate.

(From The American Chess Weekly)

ANOTHER ALEKHINE BRILLIANCY

Paul Morphy was the first master to utilize the pawn thrust as a means of breaking open the opponent's position. It has since become an important weapon of every master. Alekhine exemplified this technique, as may be seen in the following game, which won a brilliancy prize at the Bradley-Beach Tournament.

	QUEEN'S	GAMBIT	ACCEPT	ED
	WHITE			BLACK
	Alekhine		He	Steiner
	P-Q4	1		P-Q4
	P-QB4	2		PxP
	Kt-KB3	3	1.	Kt-KB3
-	P-K3	4		P-K3
	BxP	5		P-B4
1	Castles	6		P-QR3
1	Q-K2	7	4 5 1	QKt-Q2

ing to the latest practice would still be 8. Kt-B31

If Black did not want to risk the "fian-chette" development which, in fact is hardly recommendable (for instance, 8... P-QKt4, 9. B-Kt3, B-Kt2; 10. R-Q1, B-K2; 11. P-K4:, P-Kt5; 12. P-K5, PxKt; 13. PxKt, etc. with advantage, as in the game Alekhine-Letelier, Montevideo, 1938) he should simply play 8....B-K2; for the quare QB2 for the Queen, in case of the following Q8s pawn advance, will prove a very unfortunate one.

P-Q61 9 PxP 10

One of Black's troubles from now on will consist in the fact that in case of the exchange of this Bishop, White would always recapture with temp o.

	10	B-Q3
P-K4	11	Castles
B-Kt5	12	Kt~Kt5

In order to develop his Q's side pieces Black is forced to lese time with this Knight, and, moreover, facilitate the dangerous advance of White's KB's Pawn.

P-KR3	13	KKt-K4
Kt=KR41	14	Kt-QKt3
P-B4	1.5	Kt-B3
POB51	1.6	*****

A paradoxical, but most effective, continuation of the attack, by which White sacrifices the central square K5. The "natural" advance 16. P-K5 instead would have left White - strange as it may seem - after 16...B-K2 with but an insignificant positional advantage.

Q-R5 17 R-K1

Parrying the threat 18. P-B6 which now would be met by 18......P-Kt3; 19. Q-R6, B-B1.

R-B4

This will be refuted by a pretty combination, but, as Black still could not take the powerful Bishop — after 10....

KtxB6 .: fellows 13. KtxKt. Q-B3; 26.

Kt-B6 ch.i, PxKt; 21. BxP, etc. — there was no longer a sufficient defence.

P-B6:
Because of Black's last move White is enabled to effect this advance in spite of the possible defence 19....P-Kto; 20. Q-R6, B-B1, -- and this because of the following combination: 19.......P-Kto; 20. KtxPii, PxKt (or A); 21. BxP chi, KxB; 22. PxB disc. ch, K-K5 (or K-Ktl; 23. R-B5 ch KxR; 24. PxR queens ch, KxQ; 25. Q-R8 ch, K-B2; 26. Q-R7 ch, winning the Queen); 23. R-B6ch, KxP (or K-Q2; 24 R-Q1 ch, etc.); 24. Q-R7 ch, K-Q1; 24. R-Q6 mate.

(A) 20....Ktrkt; 21. BxP chi, KxB; 22. QxP ch, K-K3; 23 QxKt and wins. After the following retreat which permits the opening of the K3's file, the game is also practically over.

	19	D-B1
PxP	20	BxKtP
QR-KB1	21	B-K3
Kt→B5	22	*****
Threatening also	R-R4, etc.	THE PARTY

Edited by O.W. LaFreniere (contined from January)

Last month the two most widely used systems of notation were printed, the Descriptive and the Algebraic. The U.S., as we all know, and a larger part of the English speaking world use Descriptive notation. The Algebraic is used in Germany, in some problem magazines, and in several other place about the globe. There has been considerable controversy on the practical ity of either system, especially of the Descriptive. Many prominent people have advocated an American switch to the Algebraic. However, Americans viewed any such switch with considerable opposition, so no results have come about as yet.

Now on with the "Laws of Chess."

Vl, Current Expressions.

Man--A term applicable to each King, Queen, Rook, Bishop, Knight, and Pawn.

Piece--A term applicable to each

man except the Pawn.

Pinned Man -- A man that occupies a square between the King of the same color and the opposing piece that would otherwise be giving check to the King, or a man the movement of which would expose to capture a piece of higher value than the capturing man.

Discovered Check--Check given to the Opponent's King when the line of action of the checking piece is opened by the movement of another

man of the same color.

Double Check--Check given by the man in addition to the discovered

check from another piece.

An Exchange -- The exchange by capture of identical men, or of men of practically the same theoritical value.

Winning or Losing the Exchange -- To exchange by capture a Bishop or Knight for a Rook is winning, and of a Rook for a Bishop or Knight is losing the Exchange.

VII.

Movements of the Men in General 1. and 2. The move of a man shall be to an unoccupied square or to a square occupied by an opposing man. The move of a man shall not 3. cause such man to pass over any occupied square except in the case of the Knight.

4. A legal move of a man to a square occupied by an opposing man posing man by the Player from the

chess board.

Vill.

Movements of the Individual Men

The King can be moved to a square adjoining the square he occupies except in the case of Castling, which is a combined move of the K and the R, but counts as one move, in which first the K, occupying his own square, is placed on one of the two nearest squares of the same color as his own in the same rank and then the R, towards which the K has been moved, is placed on the next square on the further side of the moved K. Castling is not permitted (a) when either the K or R has been moved previously; (b) when any square between the K and R is occupied by a man; (c) if the K be in check; or (d) if Castling would cause the K to pass over, or occupy any square on which he would be in check.

The Queen can be moved to a aquare, being one of those forming the file, or the rank, or the diagonals to all of which the square which the Q occupies is common.

The Rook can be moved to a square, being one of those forming the file, or the rank, to both of which the square the R occupies is

The Bishop can be moved to a square, being one of those forming the diagonals to which the square which the B occupies is common.

The Knight can be moved like a R one square and then like a B one square, which final square must no adjoin the square from which the Knight is moved, such movements constituting one move.

A Pawn, when not making a capture, can be moved forward on the file one or two squares on its first move, and thereafter one square only at a time.

A capture with a Pawn can be made when the opposing man occu-nies the nearest square forward of ther of the diagonals to which the square occupied by the captur-

ing pawn is common.

En Passant -- A Pawn which has been moved two squares on its first move is liable to be captured on the following move by a Player's Pawn that could have captured it if it had moved only one square, precisely as though it had moved.

Promotion -- Each Pawn that is moved to a square on the eighth rank must be exchanged for a Q, R, B, or N of the same color without regard to the number of such pieces already on the board.

> lX. Check

1. and 2. The King is in "Check" if the square he occupies is commanded by an opposing man whether pinned or not.

Note: It is customary, but not obligatory, for the Player to advise the opponent of this fact

by saying "Check".

3. and 4. The K must not be moved to a square on which he would be in "Check" or to any one of the squares adjacent to the square occupied by the opposing K.

5. A checked K must be moved out of check, or the checking man captured, or the check parried by the interposition of another man in the next move after the one giving

check.

6. A Player who makes a move which does not fulfill the conditions in (5) must retract that move and make another move which does so comply, and, if possible, with the man he has touched in making the retracted move.

> Checkmate X.

1. Checkmate is a check from which the K cannot be relieved by any of the moves prescribed in 1X (5) and ends the game.

2. The fact of having announced erroneously a checkmate in an indefinite number of moves shall not

affect the after-play of the game. X1. The Move.

The choice of playing the first game with the White men shall be determined by lot, or by agreement, and a match of two or more games the two persons shall play with the two colors alternately irrespective of the results of the games, but games annulled according to Xll shall not be reckoned in applying this rule.

X11. Annulled Games.

 If in the course of or immediately after a game it be proven that the initial position of the men on the board was incorrect, or the chess board wrongly placed initially, the game shall be anulled.

2. If in the course of a game the number or position of the men be altered illegally the position immediately before the alteration occured must be reinstated and the game resumed therefrom.

 If this position cannot be ascertained the game shall be annulled and there shall be a re-

X111. Completion of Move.

A move is complete:

(a) In moving a man from one square to another, when the Player

has quitted the man. (b) In capturing. In capturing, when the captured man has been removed from the board and the Player has quitted the man making the capture.

In Castling, when the Player

has quitted the Rook.

(d) In promoting a Pawn, when the Player has replaced the Pawn by the selected piece and quitted the

XIV. Adjustment of the Men.

1. The Player may adjust one or more of his men on their respictive squares after giving previous notice of his intention so to do. It is customary to say "I adjust." 2. The Player shall not adjust the Opponent's men, or the Opponent the Player's men. The Opponent, however, shall adjust the position of his men if requested by the Player to do so.

(To be continued next month with part 3 of XIV .-- Adjustment of

the Men.)

CHESS LIFE

REPORTS REPORTING EDITORS

DR. BELA ROZSA WINS C.C.C.

The tournament for the Correspondence Chess Championship of the U. S. for 1942, the Grand National run by the Correspondence Chess League of America, has finally been won by Dr. Bela Rozsa of Tulsa, Oklahoma. This, the longest of any postal tournament on the League records, had four rounds and a play-off match lasting nine years.

Dr. Rozsa won the first round 6-0, the second and third 5-1, and tied with $2\frac{1}{2}-1\frac{1}{2}$ with E. W. Marchand of Rochester, N. Y. He overcame Marchand both games of the play-off finishing with a very impressive

composite of over 85% for the twenty-four games.

Dr. Rozsa has long been cutstanding in his profession (music) as well as the League and over-the-board play. His victory gives him possession of the esteemed Henry D. Hibbard Memorial Trophy for one year.

PROBLEMS

The prizes of Chess Life's International Composing Tourney for two-move problems have been awarded. Lst 2nd and 3rd prizes (\$10, \$7.50, and \$5) respectively went to Dr. Haracio L. Musante, Edgar Holladay, and again Holladay. Special prize \$2.50 was given Richard Kujoth. There were also ten honorable mentions and seven commendations issued.

Four top placing problems have been sent to Mr. E.Erickson for possible publication in the

Washington Chess Letter.

This year 35 American problems, 13 from Canada, and 29 from 10 overseas countries were published in competition, for the awards. Vincent L. Eaton, editor of Chess Life's "Mate the Subtle Way" judged the year's many gems with the aid of the late Alain White.

U.S. OPEN 52

The USCF has awarded the '52 U.S. Open Championship to Tampa, Florida under the co-sponsorship of the Tampa Chess Club and the Florida Chess League, which will have cooperation of the Tampa Chamber of Commerce and the Floridan Hotel in staging the event.

According to James B. Gibson, Jr., president of the Tampa Chess Club, plans for the event envision attracting a number of the players from Puerto Rico, Cuba, and South America to add color and gaiety to the event. Dates for the tournament have not yet been set.

BANKS

Following a chess party cexhibition and tournament held in the Banks Park Housing Project Auditorium in Bay City, Mich., for the benefit of underprivileged boys, the mothers attending this gala event who had learned chess on this occasion organized the first all-woman chess club in the Saginaw Valley. The club which immediately became chartered by the USCF will be known as the Rhoda Willard Chess Club, being named after Rhoda Willard Mowry who had served as an army nurse in World War 11.

EVANS

a three page article in the January issue of the "United Nations World," complete with a large photo of the young author. It is rumored also that Larry's photo will appear soon in "Lock" magazine.

Dr. A. H. Seering has found it impossible to continue with his games because of the press of business. We are sorry to have him drop out and hope that before long he can again join with us in pushing the wood around.

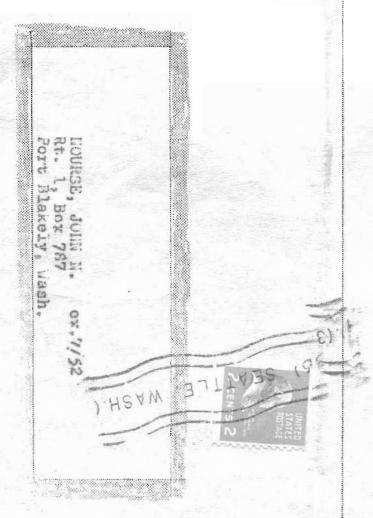

Here is a contribution sent in by H. H. Roberts clipped from an unknown source.

"The big reason I like to play correspondence chess is because it gives me a chance to tell someone a lot more important than myself what to do and know that he has to do it. I'm just an ordinary clerk on an ordinary job in a very small town and have three bosses who order me around all day six days a week and at home I get ordered around plenty, too. But when I'm playing chess I have a chance to do some dictating. I may be playing a big shot lawyer or judge, a doctor or a banker or someone else in a big city who bosses people around all day. But when I play the right moves I give the orders. I get a real kick out of it when, in moving a pawn, I force him to get his Queen out of there, or else. And when I tempt him with a piece and he captures it only to find a fork or a discovered check staring him in the face, mentally I say: 'So, you thought you were going to get tough -- now I'll boss you around for awhile.' I guess it's the only chance I'll ever have to boss somebody around and, believe me, I'm making the most of it".

Again it is proven, the angles of the royal game are limitless.

Section 51-B-12 Hardinge l La Freniere O

POSTAL CHESS is becoming more and more popular every year. Get started now by sending in your registration fee. 50¢ per section of 5 players. Each one plays two games with each of their opponents. One game as black and the other as white. Enter as many sections as you wish. Send entries to Postal Chess Editor.
