1953 TOURNEY FOR WOMEN

Are there any women chess players in the state of Washington interested in taking part in a tournament to determine this state's top player of the fair sex? This question can be answered on SUNDAY, MAY 17th. Starting at one o'clock that afternoon at the Seattle Chess Club, 616 Madison St. (in the basement of the Knickerbocker Hotel), a knockout tournament will begin.

Only \$1.00 will be charged to enter this tourney. If enough women play in this event the winner will collect enough prize money to buy a new bit of Spring finery. All of the money collected will go to the winner! This is strictly a non-profit venture. Its only purpose is to satisfy my curiosity regarding the number of women chess players interested. If this is a successful tourny it will probably be made an annual event.

This knockout tournament works quite simply. If you win in the opening round you are eligible to play in the next round and so on until you lose a game. Then you are through! The trick is to not lose. If you play to a draw you have a half loss against you. Two draws equal a loss and you are knocked out.

There is no age limit, of course. The Tournament Director for this big event (I hope) will be Dan Wade. Write him at 11023 25th N. E., Seattle, Washington or phone JU 9214. Whether or not you write or phone you can be Washington State Lady Chess Champion by just appearing at the Seattle C.C. and winning a few games.

CIRCLE SUNDAY, MAY 17, ON YOUR CALENDAR.

ATTEND!

CHESS PLAYERS! IF YOU HAVE A CHESS PLAYING WIFE, GIRL FRIEND, DAUGHTER, SISTER, MOTHER OR ACQUAINTANCE, PASS ALONG THE ABOVE INFORMATION TO HER!

NOURSE 'AD NAUSEAM⁹

THE EXECUTIONERS SONG from "THE MIKADO".

with apologies to everybody.

* * * * *

As some day it may happen that a victim must be found
I've got a little list - I've got a little list
Of Caissa offenders who might well be underground
And who never would be missed - who never would be missed
There's the pestilential smoker who exhales right in your face
And the guy who moves his pieces like he's slamming down an ace
And when it comes to zero, there's nothing quite beneath
The thrice benighted moron who loves to click his teeth
And also the kibitzer who just will not desist
They'd none of 'em be missed - they'd none of 'em be missed.

Chorus:-

He's got 'em on his list - he's got 'em on his list
And they'll none of 'em be missed - they'll none of 'em be missed.

There's the guy who likes his onions - Ah, WHAT a forceful breather
I've got him on my list - with the chronic pessimist
Be it onions - be it garlic - it sure fouls up the ether
I've got 'em on my list - the pleasure I can't resist.
There's the egotistic dawdler - who low as low I'd rate
In meetings and at matches - HE always comes in late.
But worse by far than these by Gar, is another you may recall
HE doesn't write - HE doesn't call - HE doesn't show up at ALL.
I've got 'em on the list - their tactics we must resist
And they never will be missed - they never will be missed.

Chorus:- Repeat.

There's the chap who chews tobacco - his spray is Oh, so loose,
I've got him on my list - and ZOWIE what a list
Though he's not so darned repulsive as the guy who ducks his dues
They're all upon the list - and they never will be missed.
There's the hummer and the strummer - and the boy who likes to croon
And that dinger of a singer who can't stay on the tune
There's the man who wants post-mortems whens'er he suffers defeat
BUT when he wins - there ARE no sins - it's a very spectacular feat
When we liquidate these savages as the others will insist
They surely will be missed - they SURELY will be missed
There'll be but ONE lone member left - the sheer perfectionist.

Chorus:-

They'll all of 'em be missed - they'll all of 'em be missed
There'll be but one lone member left - that sheer perfectionist.

REGARDING AN OREGON CHESS BULLETIN

Jim Schmitt reveals, in recent correspondence with this editor, that players in the Portland Chess Club are making slow progress toward the creation of an Oregon Chess Bulletin. Jim says it will be a magazine consisting of three 13" sheets, folded in the middle to produce ten inside pages and two covers about $6\frac{1}{2}$ " x $8\frac{1}{2}$ ", something like the first Everett Chess Letters put out by Larry Taro only three pages instead of two. Jim says he is going to try to get Dake to write for them monthly, although it may be a collection of his best games. It would add a lot of prestige to the magazine as most chess players know of A. Dake and would read his stuff with great interest.

Jim says Portland may have George Reddington back this Fall. He has put in about $2\frac{1}{2}$ years in the army and is now in Japan. In closing, Jim hints darkly that Reddington would be a strong addition to their team. Tremble, ye stalwart sons of Washington!

CLOCKS! CLOCKS! CLOCKS! CLOCKS!

Time limits in WCF tournament games will have more meaning from now on. Just recently O. W. Manney received six chess clocks he had sent for from West Germany. Move before that flag falls or lose!

U.S. JUNIOR

The Kansas City Y.M.C.A. Chess Club will be host from August 10th to the 15th, inclusive, to the United States Junior Chess Championship Tournament, it has been announced by the U.S. Chess Federation and the Kansas City Club.

The dates cover the week immediately following the U. S. Open in Milwaukee, arranged so that junior players who compete there may travel directly to Kansas City, if they wish.

Players will be guests in the homes of Kansas City youths for the week, at no charge of course. Those who may arrive on August 9th will be taken care of.

The entry fee will be \$5, and the event will be open to members of the U.S.C.F. and to Canadian youths who are under 21 on the opening date.

A minimum of ten rounds, Swiss system, will be played, and may go to twelve rounds if the number of entries justifies it. Entries close at 10 A.M., Monday, August 10th, and the first round will begin at 1:30 P.M. Two rounds will be played each day in a ten-round event, except Thursday. If it goes to twelve rounds, two rounds will be played on opening day; three rounds each on Tuesday and Wednesday, and two each on Friday and Saturday. Thursday will be set aside as "break day" when the players will be guests of the Chamber of Commerce and the host club for rest, relaxation, and entertainment.

Five trophies will be awarded by the host club. In addition, the Milwaukee Journal's challenge trophy for the champion, now held by Curt Brasket of Tracy, Minnesota, 1952 champion, and the Dittman trophy for the highest ranking player under 15 will be at stake. These two trophies are up each year, the winners holding them for the following year and returning them to the next tournament. Names of winners are inscribed on them each year.

Address inquiries to the Tournament Committee, Y.M.C.A. Chess Club 404 East 10th Street, Kansas City 6, Missouri. Charles W. Graham is Chairman. The committee requests advance notice of intention to enter the event.

A LETTER FROM MCNEIL

The March issue of the Washington Chess Letter has just arrived and we were well pleased with the comments on page 12 and the description of the visit to McNeil Island by Mr. Joe Cerretelli and his team. The men at McNeil Island appreciate your interest in their welfare and they hope that the publicity given in the Chess Letter will bring requests to come to McNeil Island from other groups.

We would like to work out arrangements for placing a team in your Puget Sound Chess League, but of course, all of our games would have to be "home games", and the best time for playing would be on Sunday afternoons.

F. T. Wilkinson, Warden

NOTES BY MANNEY

ZEMGALIS FUND

It's time to get busy on the fund to send Elmars Zemgalis to the 1953 U. S. Open. Mr. F. H. Weaver first suggested it in his January column. Dan Wade mentioned it in his editorial last month. Now it is up to you to start the money rolling in. In the event Zemgalis is unable to go every cent will be returned to you. The U. S. Open will be held at Milwaukee July 27 through August 8 and in addition to those two weeks there will be the travel time. Besides his actual expenses Zemgalis must suffer a loss in earnings. In order for him to afford the trip we must raise a minimum of \$200. I suggest we set our goal at \$250. A little more wont be too much. Dont put it off. Do it now! Or give me your pledge.

Zemgalis has been a valuable asset to Washington chess and extremely generous. He has not requested anything for his exhibitions and, more important, has not hesitated to participate in our tournaments when invited. He was with us on our two unhappy trips to Mt. Vernon and Centralia. This is his first opportunity to really show his prowess in an important United States tournament. Let us give him the boost he well deserves. Please send your donations to me at 5930 38th Avenue, Seattle 6, Washington.

Receipts to date: F. H. Weaver...\$10.00. O. W. Manney...\$10.00.
Ken Mulford....\$10.00.

All contributions will be acknowledged in the Chess Letter. Dan has promised all the space necessary!

AND NOW ON WITH THE "GIUOCO PIANO"

I can imagine the pleasure with which Don Ignacio A. Gutierrez collected these little gems and painstakingly copied them in manuscript. Mr. F. H. Weaver kindly wrote me: "Your notes from Señor Gutierrez are much better for learning chess players than the polished gems of the master players,--really basic chess". True - but since when were Emanuel Lasker, Paul Morphy, William Steinitz, etc., not classed as master players? It's merely that the style has changed. Actually the last word on the soundness of the Moeller Attack has not been voiced. See the many variations in M.C.O. But these are living games!

(To be continued.)

A marvelous inspiration once struck Prof. Anderssen as he was walking along one of the boulevards of Paris and he went about telling all his friends that he had evolved a completely new line of play in his head, without sight of the chess-board at all.

He played the new line of play against Morphy the first chance he got, and - lost in seventeen moves!

EDITORIAL PAGE

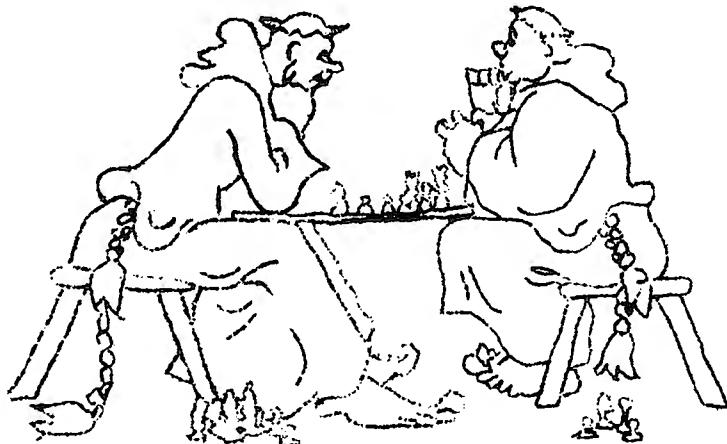

The women's tournament dreamed up by the editor and at this writing, tournament director, could well be termed a wildcat venture. Now I am not calling women chess players wildcats! I am referring to the impromptu nature of this chess promotion. The notice in this magazine plus notices sent to Royal Brougham of the Post Intelligencer and the Y.W.C.A. may or may not bring some response. If we do have women chess enthusiasts in our midst they will have their chance on May 17th.

The 1953 United States Open chess tournament is slated to get under way on July 27th at Milwaukee. If Washington chess players are generous this state will have a very capable representative at this important meet. Elmars Zengalis could be the new U. S. chess champion if he can afford to make the trip. Mr. O. W. Manney is collecting the funds. Please send donations to him. Let us put Washington on the chess map!

This is a lame duck editorial. In our next issue there should be much to write about. The annual WCF meeting on April 26th will be reported in full. Radical changes in our organization are expected. If the planned changes are made, we will have a president with authority and a small committee to keep the president's powers in check. At present we have a very loose organization where everybody and his brother is trying to run things. As long as the tail wags the dog we can get little done.

It is hoped that the entire state will be organized in the not too distant future. I would like to see the day when our Puget Sound League will only be just one of many state chess leagues. Tacoma, four Seattle teams, Kitsap and possibly other Puget Sound area communities could make up the Puget Sound League. Everett, Mount Vernon and Bellingham could make up a Northwest Washington League and Olympia, Centralia and Vancouver could make up a Southwest League. The Spokane, Yakima, Pasco League could be the core of a future East Washington League. The championship teams of two leagues would meet each other. For example the Southwestern champs could meet the Puget Sound champs and the winner of the Eastern League could play the Northwestern champions. The winners of those two matches would then meet for the state title. The same system could be used with modifications for individual title tournaments.

Ted Warner is directing the 1953 Seattle Chess Club tourney. On the 17th of April the standings of this 14 player double round-robin were as follows: Muller (13-6), Walloch (9½-4½), Edberg (14-8), Seiter (9-5), R. Vellias (13½-10½), Mulford (10½-8½), Wade (5-3), Bjerkeseth (7-10), Shephard (5-7), Roberts (5-11), Davidsen (3-8), Koenkow (3-9), Cummings (½-1½) and Blau (0-6). The above standings are not in exact order.

Unfortunately one of the 8 Oregon-Washington match games still remains outside my grasp! When we do get it we will put it into the next month's Game Section along with 3 others we have. The 3 on hand were all too long for the space above.

FROM 'CHESS LIFE' BY WEAVER

Cash prizes in this year's Trans-Mississippi chess tournament, to be held at the Chamber of Commerce auditorium, Davenport, Ia., on June 5-7, will total over \$500 according to the tournament committee. Additional cash and merchandise awards will be given Class B players, and also for Class C and D combined, according to USCF ratings. The event is open to all.

The Minnesota State Championship was notable in the fine scoring of several new-comers as well as the unexpectedly low positions of a number of the former stalwarts. Both Geo. Barnes and Dr. Giles Koelsche who have alternated as State Champions in former years, placed far below their former results. The leaders of 34 entrants were:

1. W.E.Kaiser	5½-½
2. L.C.Young	5 -1
3. C.Basket	5 -1
4. S.Sorenson	4½-1½
5. K.Nedved	4 -2

Dr. A.A. Murray scored a double victory to aid San Antonio in a 10½ to 5½ victory over Houston, Texas.

Milwaukee has had a chess program municipally sponsored for more than 25 years and a comprehensive picture of what can be done with and for chess in any city becomes vivid as one glances at the 18-page booklet issued by the Milwaukee Department of Municipal Recreation to summarize the 1952 activity in chess alone. It shows that 12 teams and 62 players competed in the adult municipal league; that 174 adult players competed in 6 tournaments, while over 1900 youngsters competed in 68 playground tournaments, and 24 women entered a woman's tournament; 2664 people attended the playground events and 3338 people participated in tournament and league events. Playground chess instruction drew 1258 girls and 3268 boys in the Summer courses. It is not accident that year after year the per capita crime in Milwaukee is far below the average for cities of its size and emphasizes the importance of organized recreation as being more lastingly effective than an efficient police force.

Chess Life writer William Rojan notes and quotes from "The Morning After" in the Seattle Post-Intelligencer where Royal Brougham wrote of the talents of young Latvian master Elmars Zemgalis. Rojan asks, "How about it, Seattle? Do we hear the gauntlet being cast into the ring?"

Reshevsky often loses a game or two in simultaneous exhibition, but an unusual upset took place at Cleveland when Ronald Rosen beat him twice in one afternoon, once in a blindfold game and then in the 50-board event.

Jerry Sullivan of Knoxville won the Tennessee Open Championship at Oak Ridge with 4½-1½. He held the title previously in 1948 and 1951. In a tie for second with 4-2 each were L.C.Noderer and Martin Southern.

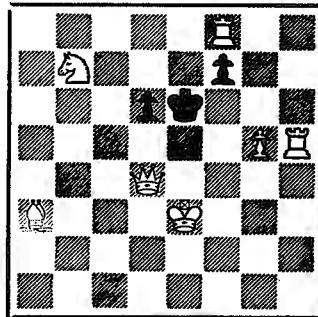

A series of photo finishes made the Los Angeles County Championship a very exciting race. Tied for first place among 26 entries were Arthur Spiller and Louis Spinner who will play a four game match for the title. Irving Rivise finished third, while Open Champion Sven Almgren placed fourth, followed by Rubin, Wallace, Giritsky, and Stevens.

The Hollywood Invitational Tournament at end of twelve rounds sees Herman Steiner (who completed schedule before sailing for Mar del Plata) in the lead with 15½-3½. Other top scorers were Isaac Kashden, 11½-½, Eugene Levin 12½-1½, Sven Almgren, 10½-1½, James Cross 8½-3½.

B. H. Wood, the eminent editor of the British magazine "Chess" has expressed his profound surprise that chess activities in American prisons are possible. Prominent in the discussion was reference to programs at Howard Charleston and San Quentin. Recent activity on the Pacific Coast notably at McNeil and at Walla Walla has been cited by Montgomery Major, in Chess Life as evidence that there is little difficulty for chess to exist anywhere there is desire for it.

THE DIAGRAM PAGE

O. W. MANNEY

Well, the diagrams showed up pretty good last month, except for a couple of errors - only one serious - see solutions below. They should be correct this time, but just to be sure I shall repeat the positions in Forsyth.

No. 1. 5R2;1N3p2;3pk3;6PR;3Q4;B3K3;8;8. This is by a famous American composer, not only of chess problems, but also of puzzles and tricks of many kinds. The key move in this problem might be frowned upon by more conventional composers.

No. 2. 7K;6pl;8;7p;8;8;R7;6kl. Although this is a composed endgame, it is a position that might happen to anyone!

No. 3. r2qlr2;1b3pk1;2pPplpp;ppPnP3;3PQ3;1R1B4;5PPP;5RK1. This occurred in a game played in a Bad-Nauheim tourney, White made one move and Black resigned.

No. 4. rlbqlrk1;pp3plp;2n2bpB;4p3;4Q3;2PB1N2;PP3PPP;RURK1. Ed. Lasker v. Carlos Torre. Really too obvious, but Lasker overlooked it when he played his last move, B-KR6, and Torre failed to make the winning move, whereby he would have won a piece.

MARCH SOLUTIONS

No. 1. Endgame by Henry Rinck.

1. R-KN7 K-B7
2. R-N2 ch. K-N3
3. R-QR2 and wins.

If 1.....R-K, White wins in an equally subtle way by 2. R-N, RxR; 3. P-R7 and queens the pawn.

No. 3. Game combination. There was a slight defect in the diagram ---- Black should have had another pawn on KN2 and a black QR4 square!) 1.....P-K6! 2. BPxP (the Rook cannot take without leaving the other Rook en prise, and a Knight move, with the exception of N-K4 or R3, would be followed by QxP mate), QxN!; 3. QxQ, N-K5 ch, and 4.....NxQ, winning a knight.

No. 4. Game combination. (And here we really made a mistake -- White's pawn on QR4 should have been a Bishop.) 1.....P-Q4!! Unless White moves the attacked Bishop or takes the Pawn he loses a piece. If the KR moves or takes the pawn, then 2.....QxP ch.!!; 3. PxQ (forced), B-R6 mate!

This list from the month of March indicates a new trend; more people about the nation are hearing about the Chess Letter and are subscribing to it. We hope we can keep the quality of our publication to such a height that they will be glad they joined us.

There are still many people on the list of unrenewed subscriptions. Please don't let your name get there! When you receive your expiration notice act at once! Have you gotten YOUR new member yet? Let's make that list grow larger each month.

NOTES FROM EAST OF THE MOUNTAINS

The annual Yakima County Round Robin is under way sponsored by the Yakima Chess Club. Tournament Director William H. Hoge announced the opening of the double round robin April 6, running each Monday evening for five full weeks. After the first evening of play Hoge, Eli Treisman, and Oliver LaFreniere all emerged undefeated; LaFreniere is defending his title won twice consecutively. Others entered are: R. B. Dexter, T. Pool, Abram Van Wyck, John Fauvergue, Terry Nelson, and Stephen Falk.

The Yakima Chess Club is very busy these days. Besides the annual round robin, it is scheduled to play return matches with both Pasco and Spokane. With Pasco it will attempt to win again; with Spokane it is working for revenge for the last defeat it received.

ATTENTION all chess players east of the Cascades! The Eastern Washington District Open will be held in Yakima on May 17. A five round Swiss beginning at 9:30 A. M. will be played under the direction of Oliver LaFreniere to determine the best player in Eastern Washington. Suitable prizes will be given to the first several places. Details will be conveyed to the Eastern players by private letter later.

NOTES BY O.W.L.

Here are three games from the State Junior, designed to demonstrate the various levels of chess in one tournament of the young. The result of this first game made Warner champion. Though I lost it, I feel nevertheless that I have helped to create a fairly good piece of chess, locally speaking.

1953 State Junior - Third Round	
Ruy Lopez - Bird's Defense	
O. W. LaFreniere	Ted Warner
White	Black
1. P-K4	P-K4
What, no Sicilian??	
2. N-KB3	N-QB3

3. B-N5 N-Q5
The Bird's Defense. MCC 6 says
it is theoretically unsound and has been
abandoned in serious chess.
4. NxN PxP
5. O-O P-QB3
6. B-B4 P-Q3
7. P-Q3 N-B3
8. B-KN5 B-K2

9. R-K1 O-O
 10. N-Q2 P-QN4
 11. B-N3 N-N5
 12. BxP QxB
 13. P-KR3 N-K4
 14. P-KB4 N-N3
 15. N-B3? P-QB4?

Black misses the chance of immediate and strong counter attack. NxP is adequate, for on 16. NxP, Q-N4, with mate on the move. A pawn will inevitably be won either by BxP or NxPch.

16. B-Q5 B-N2
 17. BxP QxB
 18. Q-Q2 QR-K1

Black wants to reserve P-KB4 for himself, which is actually a weak move, due to threats of P-K5-6.

19. R-K2 N-K2
 20. QR-K1 N-B3
 21. K-B2 P-B3
 22. K-N1 K-R1

This king maneuvering is most senseless. White stops it with a new, interesting variation.

23. P-K5! QPxP
 24. PxP P-B4

If black retakes, white seizes control of the king file, much more valuable than the KB file.

25. Q-N5 Q-K2
 26. K-R2 QxQ
 27. NxQ P-KR3
 28. N-B3 N-N5

Decentralization of the Knight aids white's game wonderfully.

29. P-K6 R-K2
 30. N-R4?? - - -

N-K5 wins. The knight can go everywhere, threatening forks, pawns and positional forte. From R4, however, it can do nothing.

30. - - - R-B3
 31. P-R3 N-B3
 32. N-B3 N-Q1
 33. N-R4 P-N4
 34. N-B3 N-Q1
 35. RxR RxR
 36. RxR NxR

Now black has a pawn plus and a pawn down at Q5. He slowly grinds white into the ground. The rest of the game is not worth looking at.

 9. N-KB3 P-Q4
 10. PxP BxP
 11. B-Q2 QN-Q2
 12. R-QB1 N-K1?

12. -- -, R-QH1 is good because 13. B-R6 is answered by a simple BxN. The text immobilizes the knights.

13. P-QN4 P-KB4
 14. N-N3 BxN
 15. PxP QN-B3
 16. P-K4 PxP
 17. PxP QxP

This is a gambit pawn. White is prepared with all his pieces to attack, using the file black opened.

18. N-K2 Q-Q2
 19. R-KN1 K-R1
 20. N-B4 P-KN4?

Actually there is not a better move. Either king move would be answered by P-K5. N-N6ch. cannot be stopped.

21. N-N6ch. K-N2
 22. NxR KxN
 23. P-KR4 N-R2
 24. P-K5 Resigns

The attack tells.

H. Kaffenberger advises that due to illness his physician advised him to try a trip "South" for awhile and his games will be delayed. He expected to be away for about three weeks, and should be resuming his games very soon now as he left about March 24th.

Leslie Coubrough has raised the point about delays due to sickness and vacations being restricted to a 4 week period. Chess Review limits such time out to 4 weeks after the player has notified his opponents and the Postal Chess Editor in advance. There have been some recent delays for a longer period without notification, which of course is discouraging to the players who do not know why they do not get replies. We feel that such a limitation is fair and unless by agreement, such a limitation will apply in the future. In case of prolonged sickness or other good reason the players may agree among themselves to a longer delay. Such delays should be reported to each opponent and to the Postal Chess Director. 16
