Chess paraded up 4th Ave. in Seattle Friday eve., July 31st! The occasion was the annual Seattle Seafair. Our game was represented by three decorated cars with signs advertising the Chess Letter, Seafair Tourney and Seattle Chess Club. Advancing relentlessly ahead of the cars were two brave chess fanatics who live under the names of Chas. Joachim and Dan Wade. A large banner advertising the Seafair Tourney was held aloft as we marched up 4th Ave. Ahead of our chess group was a square dance on the back of a truck and behind us marched amid a blare of bagpipes Seattle's... in kilts! ...Pipe Band.

Ken Mulford did most of the work in connection with a most successful chess promotion and was aided in the deed by DeWitt, Birulin, Joachim, Hebert, Wade and Mrs. Joachim. Also Miss Joachim and Miss Hebert risked both life and limb riding on the front of Mulford's car.

Recently a story was spread about Jack Nourse's death! I imagine over 40 or 50 players thought he was no longer among the living a few days after the rumor started. The editor must confess helping the story spread and hopes he learned a lesson in regards to rumors.

For the benefit of those who may still be in doubt as to the present (I hope for many many years) good working condition of one Jack Nourse let me inform you that he is quite alive.

WASHINGTON OPEN

FROM THE TOURNAMENT DIRECTOR - O. W. Manney

THE WASHINGTON STATE OPEN

We would like to make this the greatest Washington tournament yet. It is of particular importance to Washington players as it is a means of qualifying players who do not now hold an expert rating for the coming state championship. Our valiant friends from Portland are invited and a cordial invitation is also extended to our friendly Vancouver foes!

The entrance fee will be only \$3.00. As a large number of entrants are anticipated it will be a seven-round Swiss, with two rounds Saturday, September 5th, three rounds Sunday, September 6th, and two rounds Monday (Labor Day), September 7th. While this is an "Open" tournament and anyone is entitled to play, I would like to see it result in a battle of "Experts". Accordingly, a cordial invitation is not extended to the MASTERS. All experts, good players, wood pushers and dubs are urgently requested to enter!

We intend to make this a business-like tourney. All rules will be strictly enforced - including the following: All entries must be made by 11:45 a.m. Saturday. Play will start promptly at Noon. The tournament director will start the clocks of late players. A fifteen minute grace period will be allowed out-of-town players, provided they submit their entries by mail or otherwise prior to 11:45 a.m. Saturday, September 5th. The time limit: 50 moves in 2 hours. The locale for this tournament has not been decided. I anticipate it will be too large for the Seattle Chess Club and will endeavor to obtain a larger arena. If out-of-town players who may be interested will drop me a card, 5930 38th Ave. S. W., Seattle, 6, Wn. - I shall advise them when the location has been determined.

PUGET SOUND LEAGUE

I expect to prepare tentative rules and a schedule for the coming season for submission to all team captains. Therefore, I shall appreciate being furnished at an early date the names and addresses of the captains of all prospective teams, together with any suggestions.

THE ZEMGALIS FUND

Elmars Zengalis will leave August 6 for the U. S. Open. While the fund has not reached the amount for which I hoped, still it is gratifying. To date (July 29th) cash donations totaling \$170.00 have been received. A few pledges have not yet been paid. As I stated last month I intend to prepare a mimeographed booklet containing Zengalis' account of the tourney and annotated games, an autographed copy of which to go to each donor of \$2.00 or more. I shall continue to accept donations until August 10th and then airmail them to Zengalis! All donations will be acknowledged in the next issue. Again thanks to all and GOOD LUCK - ELMARS!

WASHINGTON 18 B.C. 12

The victory famine has ended. A Washington chess team won a match from an outside team. British Columbia was decisively routed 18 to 12 in the Tenth International held this year under the Peace Arch on the border near Blaine on Sunday, July 26th.

B. C. won back the B Division plaque, winning by a very close 9 to 8 score.

A large accumulation of back issues of the "Washington Chess Letter" were passed out to our B. C. chess friends in an effort to acquaint them with our activities.

Mr. O. W. Manney, our hard-working tournament director, came prepared with a large board into which were set pegs to hang names on. In this way he could shift the names around until he found the order most suitable to him. As usual, of course, there were men placed too high and men placed too low and there always will be until everyone takes a more active part in chess tournaments so a true evaluation of their strength can be had.

We had more "chess muscle" this time than usual with top club players on many of the boards. The

top ten boards found Washington holding a $5\frac{1}{2}$ - $4\frac{1}{2}$ edge, the second ten Washington players out-scored the Canadians 6-4 and the last ten outscored them by $6\frac{1}{2}$ - $3\frac{1}{2}$. Our team made $5\frac{1}{2}$ points on the last six boards to account for the big margin of victory.

Seattle supported this event better than usual and supplied about 20 players. Tacoma, Yakima Bremerton and points in between supplied the rest. The hoped for 60 players failed to materialize and we had to settle for 47, the same as last year. Next time the International will be closer to the homes of most of us and perhaps then we will muster more men.

Mr. Peter Husby, our Federation Secretary, made all of the arrangements for us and even made a trip to Vancouver in our behalf.

Only eight B. C. players were able to win in the A Division.

ZEMGALIS SEAFAIR CHAMPION

Charles Joachim directed this year's Seafair Chess Tourney and really had a hectic time! He was consternation impersonified to find only six players (including himself!) prepared to play in the tourney Saturday morning, August 1st. Only six and just the night before (see page 1) chess had paraded up Seattle's 4th Avenue. So the six players settled down to a hard five round round-robin affair with the Seafair and Seattle chess championships at stake. A bomb shell exploded in the opening round when RUSSELL VELLIAS PLAYED ZEMGALIS TO A DRAW!

Vellias could not stand the prosperity and lost his remaining four games. Zemgalis went to work and won the rest of his to win the tourney. Joachim was second. The others were J. DeWitt, D. Reveal and J. Nourse. Details next issue.

fore the first day ended, 10 more showed up and were put to playing in a "B" tourney. After they had started, 8 more showed up and were put to playing in a "C" tournament so poor Joachim had his hands full playing and directing 3 tourneys!! David Erickson (9-0) won the B and W. A. Percy won the C tournament.

HARDINGE

Our Minnesota correspondant, Chuck Hardinge, reports that Minnesota & Canada met in a match at Detroit Lakes, Minnesota. The Canadians, led by H. Yanofsky, won the match $15\frac{1}{2}$ to $11\frac{1}{2}$ in the 27 board affair.

This annual meet has been a MUST! since 1935. Canada furnished the trophy but the Minnesota boys were unable to bring it back with them.

Hardinge furnished a complete summary but he did not play in it nor did Sheldon Rein (Wash. Woodpusher champ) compete.

Chuck received a letter from one of our Puget Sound area fisher men recently. This refers back to the March issue of the W.C.L. in re 10 dollars Dan squandered for a book on chess openings. "I had sent Mr. Wade a nice salmon that I'd caught on second street on a rainy day & he kindly invited me over for fish dinner. Mrs. Wade started to prepare the fish early that day with "stuffins" and everything. After taking some exercise (to work up a good appetite) we finally sat down to the festive board. The table, a converted chess board, had chess pieces sewn on the borders for adornment. The kings and queens had been hollowed out and contained of all things a small amount of Four Roses. After whetting our appetite on same the "piece de resistance" appeared as a whole salmon & had the aforesaid "stuffins" showing slightly. Dan started to stab at the critter and sliced off some on to my plate. The salmon tasted delicious and then trying some of the stuffins we fractured a tooth in our falsies on something pretty hard and brittle. Cleaning it off we discovered a rook that Dan had lost to the Missis the previous evening. Upon going further we came across something soft and crackly. This turned out to be several of the pages from that book on chess openings that Dan had bought with

that \$10. On reading the pages we found that the missis had been trying to learn the Muzio Gambit and inadvertently put it in the dressing, so if Dan loses that gambit, you will know whose fault it is.

Ye Gambit Fiend has challenged ANY Washington player to a correspondence match at gambits and to date the silence is deafening. Whatsa matter? Are all the good old time players who play chess for fun all dead? Remember, chess is only a game for amusement and refusing to play those most lively and amusing games you lose the REAL reason for chess. Chess IS NOT for the purpose of seeing whose mind is the biggest or the most brilliant, but is primarily a GAME for amusement.

Speaking of gambits, here is an example of the Falkbeer Counter.

This game won the brilliancy prize in the 1937 Washington State Tournament. Played Sept. 21, 1937.

SEATTLE Every Friday night for the past several months between 16 and 30 players have come to the club at 616 Madison St. Secretary V. Bever and prexy T. Davidsen have been the hard working men who have kept this club a live and interesting one.

The annual club tournament came to a halt months ago and it may be considered "completed". The championship was retained by Walloch who is one of the state's best players. It is too bad Walloch has been unable to compete in other tournaments.

Walloch lost $\frac{1}{2}$ - $\frac{1}{2}$ to Muller, defeated Vellias 2-0, broke even with Dr. Shephard and Seiter 1-1, downed Mulford, Roberts, and Edberg 2-0, beat Wade $1\frac{1}{2}$ - $\frac{1}{2}$ and split with Koenkow. I totaled these results and found the final score to be 13-5. Muller has a 14-6 score and is second. At the bottom of this page is the summary.

TACOMA Mr. Coubrough sent me some chess news recently. A new service building is now under construction in Wright Park. The building is of concrete block construction faced with brick and will be used to house park equipment. The L-shaped wing will be used as a year-round recreation room with tables for checkers, CHESS, etc.

So the Tacoma Club plans to move out of the Y ???

CHESS CLUB.

On behalf of the patients at Madigan, we, of the Red Cross, we would like to thank the members of the Tacoma Chess Club for the many happy hours they have afforded the men for the last three months.

Everyone has appreciated the time and effort it has taken chess members to come out to Madigan and we want you to know that you have made many men happier during their stay here in the hospital.

We do hope that Mr. Coubrough and Mr. Collins will continue coming out on Wednesday afternoons as the men do look forward to visits.

We hope that, once again, in the fall we will have some of the chess members coming out in evenings for chess tournaments and instruction. In the meantime, thank you so very much for your interest in the hospitalized servicemen. It has been delightful having all of you.

Sincerely,
(Miss) M. Catherine Little

Philip Woliston was a class mate of mine at Franklin High School in Seattle back in 1935 and 1936. A small dark youth with a terrific desire to impress people was my picture of him then. The first year most of us could beat him easily in chess. Then he met Ulvestad and other Seattle Chess Club players and started to improve rapidly. His intense love of chess and thirst for greater knowledge of the game no doubt speeded his progress. He spent so much time on chess that his school work was neglected and he was ineligible to play on our strong 1936 chess team so we had to play second fiddle to Roosevelt that season.

He was rapidly gaining a reputation as one of Seattle's top players when he moved to Los Angeles. Shortly afterward Woliston won the California State Chess Championship! Following are some of his games from that tourney. H. Steiner, G. Koltanowski, Fink and G. Patterson, now residing in Seattle, were in that tournament.

YAKIMA NEWS

by O. W. LaFreniere

(The editor of this column apologizes for the lateness of the first two articles.)

HOGE TAKES COUNTY OPEN

From April 6th to May 11th the Annual Round Robin for the Championship of Yakima County was conducted at the YMCA in Yakima. This year it was a double round robin, directed ably by its winner, William H. Hoge with 17 wins, one loss, and one draw. Hoge's only loss was to runner-up Eli Treisman and his draw to Oliver LaFreniere. Hoge is a former Champion, having won the tournaments of 1947, 1948, and 1949. LaFreniere had won those of 1951 and 1952, and Treisman that of 1950.

2. Eli S. Treisman	12	3	0	80
3. O. W. LaFreniere	13	5	2	70
4. Rolf Lavik	11	5	2	67
5. Miles L. Fuller	10	6	2	61
6. John Fauvergue	9	10	3	47.7

10. T. Albert Pool	7	14	1	34
11. Richard B. Dexter	2	11	0	15
12. Stephen Falk	0	19	1	3

Despite the showing of the last place, it is this editor's contention that youth will make its mark in Washington chess. Stephen Falk is but 14 years old, and has shown considerable improvement since the County Open. In future years, watch out for that boy!

Another Yakima youth of 12, Terry Nelson, has come to the fore recently. He was able to place very well in the last State Junior, and soon should be able to win it.

HOGE WINS EAST DISTRICT

Showing invincible strength, Hoge swept what is supposedly the strongest tournament in Eastern Washington with a perfect score of 7-0. The Eastern Washington District Open Tournament of 1953 was held in the Yakima Business College Auditorium on May 17 under the direction of Oliver LaFreniere. Because of the seeming speed of the games, a round robin system was used for the eight players attending. Spokane, Pasco, Grandview, Naches, and Yakima were represented. Players in order of standing were: Hoge, LaFreniere (Yakima), John Fauvergue (Naches), Dr. G. H. Parker (Spokane) Georgia Carter (Grandview), Captain Henry T. Jackson (Pasco), Terry Nelson and R. B. Dexter (Yakima). Hoge won a cash prize for his achievement. Dr. G. H. Parker suggested that next year's Eastern Open be held in Spokane, and Tournament Director LaFreniere accepted the proposal.

ABOUT BILL HOGE —

Hoge, 33, is single and a native-born "son" of Yakima. Presently employed as assistant auditor by the City of Yakima Water Department, he has been active in Yakima County chess since the formation of the Yakima Chess Club in 1947. He has been president of the latter club since 1950, and has served well as rating statistician for the club. He has played in numerous state tournaments held in Seattle. Some samples of his play are to be found on the following page.

PASCO WHIPS YAKIMA

Pasco swept by a score of $12\frac{1}{2}$ - $7\frac{1}{2}$ a drowsy Yakima team off its feet. George Asanovich led a team of ten men to outnumber and outplay W. H. Hoge's weakened team. Yakima's official excuse is the last-minute withdrawal of several of its better players. Pasco thus avenged its Fall defeat to a five-man team from Yakima.

NOTES BY O.W.L.

The following are two games played by William H. Hoge against two formidable opponents. One is champion of the Tri-city area (Pasco, Richland, Kennewick), and the other a former Yakima County Champion. In the first game Hoge demonstrates a no-how as a defender in a bad position. It is a prime example of pulling something out of the fire. The second game shows a fearlessness in going after material when it can be had for free.

SEPTEMBER 5, 6 & 7 - STATE OPEN

HELP PROMOTE W.C.F!!!

I wanted to print this month a long list of names under "Welcome New Members" but instead I must admit the truth. In a total three month period only three new members have entered WCF. This is the most shameful record ever in the whole history of promotion work. The responsibility lies with you, the members, as a whole. Our top men in WCF are already tremendously overloaded with work--especially Dan Wade, and they cannot be expected to take on more. Will you please help us? By helping us you help chess and yourself as a chess player. By having more members we can have a bigger and better Chess Letter, larger tournaments, and stronger national recognition. Your task is very simple. Tell your friends about the Chess Letter and ask them to purchase it. Two dollars a year certainly won't break them, and the actual value is far higher. When you get one member, get another, and then another. Keep pushing, and you will see tremendous improvement!

At present two things are being done by the officers of WCF to increase our membership. Small advertisements have been placed in Chess Review and should appear in August and September. Watch for them. Also another circular is being prepared to send to prospective members whose addresses we can obtain. If you know a person interested in chess but you can't contact him, please send his address to me, Oliver LaFreniere, 2807 West Yakima Avenue, Yakima, Washington. Don't wait for the others to move before you do, or we will all be waiting. Move at once!

DON'T FORGET TO RENEW YOUR SUBSCRIPTION WHEN IT IS DUE. DELAY HURTS EVERYBODY!

FROM 'CHESS LIFE' BY WEAVER

Sam Reshevsky won the match at Buenos Aires against Miguel Najdorf by the close margin of 9½-8½, winning 6, losing 5, and drawing 7. In 1952 Reshevsky scored 11-7.

Arthur Dake, Portland Master, had been chosen as a team member and was all set to fly East to join the U.S. team in the proposed match with Russia when word came that the match had been cancelled.

The United States Chess Federation has adopted a new system to determine a national champion. In 1953 and each odd year thereafter, a Candidates Tournament will be held open to all players with a published rating of Expert, or higher. These tournaments will be conducted under the revised Swiss System plan, and the winner, in the following year, will play the existing U.S. Champion.

A survey of chess publications lists 31 in the USA and 4 in Canada, of which 4 are professional publications. Two State publications, Nebraska and West Virginia are printed bulletins. California Chess Reporter and Cleveland Chess Bulletin are outstanding among the photo-offset group. Of those produced by mimeograph, Washington Chess Letter is listed as most imposing in contents and appearance. There are a total of 52 newspaper and magazine chess columns in addition to the exclusive chess publications.

The State of Washington is accredited with eight annual tournaments for the purpose of rating individual players by the USCF: Washington State Championship, Open, Junior, Woodpushers, Puget Sound, Seafair Open and Junior, and the U. of W. Championship. The only States with greater recognized activity are New York and California.

Ariel Mengarini, M.D., New York psychiatrist and former U.S. Amateur Champion, (and The Man Who Beat Reshevsky) is an ardent exponent of "Minute Chess". He has promoted several

tournaments at the rate of 30 moves in 30 minutes. It was adopted recently by Mechanics Institute of San Francisco for its club championship, and Mengarini believes it will sweep the country, replacing the rat race of 10-second chess and the too static 40 moves in two hours. It is ideally suited for Swiss-system tourneys as two games can be played by opponents in the same time thereby avoiding the unfairness of who has White, avoiding adjournments, and because of the fact there are more rounds giving finer discrimination in final standings. If you lose you can always blame it on the time limit. Mengarini believes 30-30- chess allows for good accurate planning provided you don't try to analyse every improbable variation. He cites the following example of aggressive, original play:

MORE HISTORY. THE 19th CENTURY.

The first half of the 19th century was notable for opening research and analysis, Evans demonstrating his gambit in 1824. This year also saw the birth of the Scotch game, socalled because it was first used in a team match - Edinburgh v London. The Allgaier gambit also originated in 1824. Not generally known is the fact that Allgaier was first with the idea of tabulating openings.

In 1843 Howard Staunton was rated the first player of Europe, his "Chess Player's Handbook" being published in 1847. He left his mark on chess literature by listing the openings systematically. Today his memory survives mostly in the beautifully sculptured chess sets which became standard under his name.

The second half of the 19th century is notable as the era when the modern style of chess was initiated and developed. Andersson and later Morphy demonstrated that chess brilliance need not be built on opponents errors. They combined brilliance with soundness to establish their victories.

Prior to Morphy the gambling game was the vogue, sacrifices being readily made for nebulous attacks. Following Morphy came the school of Steinitz who beginning as an aggressive player finally came to love the defensive game. He has been accused of destroying the "brilliancy" of chess but he succeeded to such an extent in refuting the illusion of unsound attacks that all late masters pay him homage by subscribing to his theories of play.

Certainly chess has gained and lost many features since the eighteenth century. Modern players have the advantage of the selected analysis of openings, end-games and planned traps of their brilliant predecessors. Unfortunately lost to them forever is the spirit of discovery, the endless thrill of planning and testing a new opening, the gratifying knowledge that a game is a struggle, from first to last, of untutored minds through uncharted channels.

Games played in Washington State tournaments show by their easy familiarity with standard opening play that study is a primo requisite in modern chess. This condition however, is not so apparent in recorded games up to the time of Morphy.

* Forfeit. The "Puget Sound Chess News" ceased to exist before the last round was played. Therefore, the scores of the Seattle - U.W., Q. Anne - Bremerton, Bainbridge - Q. Anne, and Bremerton - Skagit are not known. The only reason I know that Seattle won from the U. of W. is because I played in that match.

I am grateful to Mrs. (misters not misses!) Collins, Holmes and also Coubrough for the following:

Tacoma won their last round scrap from Everett the hard way. Taro and his mates were ahead 4½ - ½ and then Tacoma won 5 to win the match! Holmes split with Taro, Hewitt and Power each scored one, ditto Creque and Tweeddale Sr., the same with Collins and Naas but Hultman scored 1½ points over Hildenbrand to give Tacoma victory.

The big crucial of course was the clash between Tacoma and Seattle with the winner being almost a cinch to win the championship. In this match Tacoma's Crain split with Joachim, Holmes scored 1½ over Bickford but Seattle's Weissenborn scored 1½ over Hewitt, Creque of Tacoma split with Tracy and Collins won both games over Seattle's Fredrickson.

Some of the players who made up the teams participating in the 1st season of Puget Sound League play are as follows in order of strength: Tacoma-Holmes, Collins, Coubrough, Hultman and Fenton. Seattle-Sheets, Howard, Fredrickson, Tracy and Forray. Everett-Taro, Power, Naas and also Hildenbrand and Husby. U. of Wash.-N. A. Roberts, Fletcher, Au-Yong, Oles and R. King. Bremerton-Magerkurth, Stauffer, Rehberg, Johnson and Sabin. Bainbridge-Jack Nourse, Henry, Hagen, Norman and Webster. Skagit-Gnagey, Gordon, Brandstrom, Thurmond and Eichman. Queen Anne-H.H. Roberts, Hazen, Ring, Brewster and Raleigh. Bob Neale and V. Bever later fortified the Q. A. team, Dightman, Bickford, Joachim, and Schmoyer helped Seattle and there were many others as the summaries of the Tacoma-Seattle and Tacoma-Everett matches above indicate.

This all took place during the first season of PSL play back during the years 1946 and 1947. Every year the faint-hearted ones bleated out "This is the end" but nevertheless the PSL has continued.

The Feb. 1947 Puget Sound Chess News was the last one to my knowledge. There was a gap of a few months and then the first of Taro's "Everett Chess Letter" in July, 1947. Just six years ago.

THIS MONTH'S CHESS GEMS.

No. 1. An original problem from the April, 1946 "Chess World" (Australia) by a New Zealand composer - G. H. Braithwaite. The key is good, and the pen-model excellent.

No. 2. Another from the favorite endgame composer, Richard Reti. Not one of his best, but still a masterpiece.

No. 3. In which the above-referred to master gets the worst of it!! Delaying tactics are his only solace. Played at Budapest, 1926.

No. 4. Played at Kristianstad, 1922. Easy but neat.

JUNE SOLUTIONS.

No. 1. Black helps White mate in two.
1.....K-R1; 2. K-B3, P-N8 (B)!; 3. K-N3 mate.

No. 2. White moves first forcing Black to mate in two. 1. B-B6 ch. KxB; 2. O-O, N-B6 mate; or 1.....K-Q3; 2. O-O-O, N-Q6 mate!

No. 3. From the game Steiner vs. Purdy. I hope you noticed the diagram gives the position before Black's last move of 21.....Q-B7???. 22. N-B6! and wins the exchange, unless Black gives up his Queen for Rook and Knight by QxR ch! Thereafter he might put up a strenuous resistance.

No. 4. A fine combination. 22. BxP ch!, KxB (if.....RxP, 23. P-K6! wins.) 23. P-K6ch!, KxP;

If instead.....K-K1; 24. Q-B6 ch, K-K2; 25. Q-B7 ch, and now either:

I. - 25....K-K1; 26. P-K7, QxP; 27. KR-K1, B-K3; 28. RxR ch. etc., or

II. - 25...KxP; 26. QR-K1 ch, K-B3; 27. Q-B6 ch., K-B2; 28. Q-K6 mate!

24. QR-K1 ch., K-Q2 (If to B3, mate follows as in II above.) 25. R-B4!!, Resigns.

Coubrough	½ Husby	½ 50		
Mulford	1 Coubrough	0 66		
Mulford	1 Husby	0 14		

Quite a shakeup in the A section. That ambitious Mulford displaced Coubrough in second place and Bever advances from 7th to 5th place.

No, that big thud you heard wasn't an atomic blast, just your postal editor dropping from second to fifth place in the B section.

Raymond A. Dickey has reported that he is now in Bangor, Maine. As he was some time en route there from Korea and his record of games being shipped with his baggage, his games were all delayed. Now he is settled down for what he expects to be about a two and a half year tour of duty at Bangor, his games should now progress in a normal manner. While he had a hard tour of duty in Korea, he found time to play some chess and placed second in the Far East Chess Tournament in Korea just a week before leaving there. On arriving in the U. S. A., a 30 day leave was obtained. He and wife and two children had an enjoyable trip to the East, taking in Yellowstone Park and visiting relatives in several places on the way. We are glad to know of his safe return. His new address is
