SWISS THOUGHT

-- DL Waterman

How often does the objectively strongest (is there such a thing?) player in an open Swiss tournament win it (especially below the internationally titled level)? Perhaps 50% of the time? This is not a complaint per se: not only are the variables innumberable but for many players I suspect that a goodly part of their interest (conciously or unconciously) is the gamble in the game. I am bemoaning the lack of other events (invitationals and one game a day opens). A player in this country could be a potential IM & or IGM but if his style wasn't suited to the grueling pace of weekend tournaments he might soon become discouraged and cease to improve.

FREE CAFE FIGARO OPEN, L.A., JUNE 8-13 lst \$500, 2nd \$300, 3rd \$200 An advertisement of this kind in Kashdan's LA Times chess column last month brought me and 95 other chess freaks to the scene of one of the whacklest tournaments ever held. USCF membership was required. Bill Cosby donated the money and rumor has it that he will sponsor several tourney's every year. Playing conditions were unbe lievable. Dim lighting, poor circulation, no room to walk around, music playing over the loudspeakers, waitersclanking by, and people eating lunch next to you. Masters were upset left and right, one in 8 moves: Time control was 45 in 1; but as we had to be out of the way in a total of 4 hours (for the evening rush) secondary time control was a hour. Period. If your flag fell before you mated your opponent you forfeited. And this was USCF rated! In the final round Weinburger played Addison for first place. In a drawn position (endgame) Weinburger apparently barely tipped a pawn. After a heated dispute TD Kashdan ruled that he must move the pawn (allowing Addison to win a piece). Luck in chess?

One person cannot win a strong tournament singlehandedly. Furthermore a lower rated player must play better chess to win a strong tournament than a higher rated At the Lockheed Open (May, Sunnyvale, Calif.) in a six round tournament I played the top four rated players while

*** A REVIEW OF OFFICIAL CHESS RULEBOOK ***

BY Martin Morrison

he must take the first enemy man he touched with the first of his own touched men that can make the capture. There has been much controversy on this interpretation, since some say that the rule covers only the first man touched; in the above case, they would say, the player would only to obligated to capture the first of his opponent's men touched that could be captured, without any restriction on which of his own men should make the capture. The same situation exists when the player's own men are touched first, then the opponent's. I myself find the Article vague, but Mr. Harkness's interpretation may be quite correct and will surely carry a great deal of weight with tournament officials.

ARTICIE 8: THE TOUCHED MAN. ("... No penalty is entailed if the opponent does not claim a violation of this rule before himself touching a man, ...")

Mr. Harlmess has evidentally changed his mind on the interpretation of this, since he wrote in the Handbook: "Unless a claim is made at the proper time, it is not the responsibility of the Director to see that the rule is observed." Now, in the Rulebook, he says: "the duty of the director to see that the laws of chess are strictly observed /Article 19b) invariably takes precedence in situations of this type. ..." Other things being equal, I believe that the standard principle, a general statement is always of less authority than, and yields to, a specific statement or rule, would be operative here. Since a specific statement is made in Article 8 and a more general one in Article 19b), it seems to me that Mr. Harkmess's statement in the Handbook is more correct. In any case, the point is debatable, but the contradiction between the Handbook and the Rulebook should be resolved for tournament players and officials.

ARTICLE 12: DRAWN GAME, SUB-ARTICLE 3 DRAW BY REPETITION OF POSITION. This sub-article has consistently caused confusion, primarily because there was doubt whether a player, after announcing the draw, should make the move leading to the third occurence of the position. Er. Harkness's comments on pages 47, 49, and 67 soundly indicate that the player should make the move, in fact must make it before his flag drops. This procedure is the opposite of the one laid down in old USCF Tournament Rule 11. I am pleased that Mr. Harkness has chosed to translate the subarticle exactly in the Rulebook and to paraphrase the 1960 FIDE Interpretation of it, whereas in the Haudbook he combines the two. This is the explanation of the change in wording, the sub-price leaves here negociated.

in wording; the sub-article has not been amended. ARTICLE 13: RECORDING OF GARES and ARTICLE 17: LOSS OF THE GARE, SUB-ARTICLE 1 CLOSS ON THE T. By universal agreement, the matter of time forfeitures, closely connected with the matter of the recording of games, is the most vexing in US tournaments today. In important international tournaments, a small number of players are involved and a comparatively large number of officials. All games involving time trouble are closely watched by an official. In the US, however, the popularity of weekend tournaments and the scarcity of officials does not permit adequate supervision on the part of officials. In the Rulebook, Mr. Harkness has distinguished small tournaments from large tournaments and attempted to solve the problem by having the USCF adopt the following new Fournament Rule (No. 18): "Whenever possible, the tournament director or an assistant should be present to referee a game in which there is time-trouble. The referee should endeavor to count the moves as they are being played. Then, when a player's flag drops, the referee should-(a) accept the claim of a win by the player's opponent if the claimant's scoresheet indicates the number of moves made and if the referee's own count verifies the validity of the claim; or (b) claim a win on the opponent's behalf on the basis of the referee's independent count of the number of moves made. . . " In effect, this rule permits an official to make an "instant time-forfeit decision" without waiting for score-sheets to be completed. Although an ingenious solution on its face, this procedure, as Mr. Harkness himself grants, seems to go against Article 13 and the 1959 FIDE Interpretation of it. Many US officials have recently argued for strict enforcement of the obligation of a player "to record the game . move after move Article 137" and that lax enforcement is not only probably illegal but also detrimental to organized tournaments, which for many purposes rely CONT. COMMENTS ON EVED CREEN EMPIRE OPEN By WCF President Russell Miller

Once again Tacoma Chess Club has put on another fine Evergreen Empire Open. Lyman Johnston proved to be a fine director and event ran smoothly. I would suggest that arrangements be made for a larger playing area for the future. Also would suggest raising the entry fee on top section to \$7.00 and lowering the rating limit in "B" section to 1600. Running two sections is two much for one tournament director. This year the team part of event suffered from lack of attention and attendence. Tacoma has not been only playing site this year to be short on space. Puget Sound Open was played in to small a xapage space. WCF hopes to take care of that by holding events at Seattle University. A few more players would have over run space used for Sunfair Open in Yakima and I plan to find a large room for next year. GEURGE KRAUSS and JOHN BRALEY shared

top prize money in the 1970 Evergreen Empire Open with KRAUSS taking first on the tie-breaking points. KRAUSS finished early and was forced to watch his grip on first prize loosen as OWEN DVOSHAK lost on time in a game which BRALEY should have lost. Then in the last game to finish BRALEY went 95 moves in an unsuccessful attempt to win an adjourned game against JOHNNY WALKER in which BRALEY had a pawn advantage but bishops of opposite color.

WALKER and VIKTORS PUPOLS shared 3rd place money with WALKER finishing 3rd on tie-breaking. TIM KAUPPILA and PAT HESSEN shared the Class "A" prize and RUSSELL MILLER and ROBERT NELSON shared Classs "B".

In the Reserve Section GERALD COOK finished alone in first place wiht a perfect score. STEVE THOMAS took home second place trophy and SAM MCKIBBIN did the third.

The PO-CO-HA-TH-NE team of POLLACK. COOK, HATCHER, THOMAS and NEUHAUS took the team trophy with 222 points. Tacoma demonstrated how to support a local chess tournament with 28 contestants being from the immediate area.

Note the score of DVORSHAK brothers, the family diet apparently has added raw meat. OWEN with 1850 rating and AL with 1836 scored two wins over Experts and two draws and a win over near experts plus OWEN's startling near win over Master BRALEY.

Northwest rated and USCF rated Master VIKTORS PUPOLS of Seattle and Holly won top section of 3rd Annual Sunfair Open with perfect 5-0 score. For his efforts he took home or rather his wife SALLY took home a check for \$100.00. DENNIS WATERMAN of San Francisco, Portland and Mytle Point for his second place finish took home \$60.00. TAKASHI KUROSAKI of San Francisco finished with 4-1 tied with JOHN BRALEY of Seattle. KUROSAKI was eligible for 3 prizes, 1st Expert, 1st Jr. and & of 3rd but one can win only one prize and each was worth \$20.00 to him so he took 1st Expert. That left BRALEY with \$40.00 for 3rd. JON FRANKLE of Des Moines scored 32-12 inculding a first round win over BRALEY to be able to take either 1st Jr, since KUROSAKI didn't or 1st "A", he took "A" of \$20.00. WARNER AND KRAUSS other 35 point scores shared \$10.00 2nd Expert. HLADEK, KAUPPILA, RUSSELL, WILLIAMS and ADAMS shared 2nd A of \$10.00. RUSSELL MILLER of Yakima won 1st "B" of \$20.00 plus was highest scoring Yakima County resident so won free wheel alinement for Frank Homes Tire & Service. SAM MCKIBBIN took 2nd "B" of \$10.00 Top Jr. prize went to HARRY SATANOVE of Vancouver. TIM STEWART of Bothell pikced up 1st "C" of \$20.00 while JEFF HANSON took 2nd "C" of \$10.00. The total prize fund was \$340.00 which unfortunaly was not covered by entry fees. Thanks to donations to sponsoring Yakima YMCA Chess Club from Valley Evaporating Company, Shields Bag & Printing, Philips Distributing and Russell

Miller the prize fund was covered with some left over to back next

RICHARD RAYMOND of Seattle won Novice Section wind first prize of a chess clock.

The event was held at Home Federal Sawings and Loan in Yakima. The site was one of the best lite of any I have been at. Could have used a little more space and do hope to have a larger room for next year.

The event was quite strong with 4 Northwest Rated Masters 7 NW Experts plus 1 USCF Expert and 11 Class "A". CLARK HARMAN of Portland won 2 of his games on time forfeits which is not to say he might not have won them anyway. The two games he lost were to number 1 & 2 finishers.

10 games in event ended in draws. KUROSAKI, FRANKLE and MARK HAZELWOOD are attending a summer Math course at Whitman in Walla Walla which Northwest Ratings Director Vic Keiser is the head of. For last two years he has tied to get high school chess players from over USA to attend. He sends mailings to address supplied by USCF. Last years Sunfair Open winner Danny Kopec attend the Math course last summer. The course is ofcourse advertised in other places than just to chessplayers. If you are a high school student interested in Math you might contact Dr. Keiser about next years course.

Kathy and Russell Miller directed the event. They were able to provide 17 sets and boards rented from East-West Tournment Assoc of Portland so play took place for most part on all the same sets and boards.

CHAMPIONS PLAY TOURNAMENT CHESS

OREGON CHESS NEWS By HARRY GLIDDEN

George Krauss

WINS INDEPENDENCE DAY OPEN

by Hanon Russell

George Krauss played extremely solid chess throughout the tournament and was never in any danger from any of his opponents.

Larry Scott edged out Russell Miller on tiebreakers (Elo Points) for second place. Scott lost a heart-breaker to Krauss in a marathon last round game. Larry filled the last opening for the 1970 Oregon State Championship by being the highest finishing Oregonian in the tourney. Russell Miller played flashy chess and earned a well deserved 3rd place.

The tournament was played July 4 & 5, 1970.
The tournament was directed by Hanon Russell and was played under fine conditions in the Park-Haviland Hotel. Sets and boards were supplied and every game was played on an individual table.

(Ed. Note: I believe Mr. Russell supplied the chess sets. Do you intend this to be an annual affair Mr. Russell?)

Hey all you Northwest chess players do your best to make this event a real success, Oregon chassers especially. Lets get Eugene back on the chess map.

If you do not have much to say but think it is worth saying send it in.

Mr. Martin Morrison has an answer to this section for last month in another part of this issue. At least some one reads this stuff. I thought I had done a pretty good back-hand recommendation to subscribe to Morrison's works. How many of you would be willing to do your own interpretations? Anyway now you can get a clearer version of the matter. I subscribed with Morrison. Say if he can get rich in this kind of work I hope he will let the rest of us know HOW! If the above does not make sense to you - read Bits & Pieces in July issue then read Mr. Morrison's response, in this issue. He sent me a copy in advance.

I received a copy of the Larrance-Bricher 6th round game in the Oregon High School Individual Championship today. Too late for comment in this issue. It will be in the September issue.

Willie Skubi has asked me to call attention to you Ore. players, chess promoters and publicity promoters that he would like anyone with an idea for some added special columns or what have you, regardless of where you live. Skubi also points out that anyone from any of the NW

affiliated chess federations can enter the elections for the position of Top Editor for Northwest Chess. If one of you does and wins the job Willie will give you some on the job training as to assembly ect. All you will have to do is spend eight hours or so in Seattle with Skubi when he puts out an issue.

It might supprise you how many reasonably good chess players there are who do not belong to any chess organization. Even some who would like to but just have not taken the time to learn about such groups. Get your chess activities before these people with some advertising, publicity, whatever you care to call it. However to do this your information must be published in other than regular chess publications: Radio, TV, Newspapers, State and City as well as Chamber of Commerce activity listings. Give them all a try.

Youth Fun Event

STORY TELLERS GUILD CHILDREN'S FAIRE

This is an annual event held in the PETER BRILT CARDENS at Jacksonville, Oregon. The dates this year are August 30 from 3 to 6 PM; August 31 from 9 AM till 12 noon or done; Sept. 1 from 9 AM till done.

Last year chess was included in the faire for the first time and a section will again be set aside for chess,

this year.

The theme this year is Renaissance with all events in a MEDIEVAI ATMOSPHERE IN coordination with the Shakespeare festival being conducted in Ashland at the same time. Admission charge is 25¢ each day, which includes participation in all the events at the Garden.

Anyone attending the event may play chess but for any prize or score value only those in the 8th grade or

lower will be counted.

The chess activity will be conducted on a catch as catch can basis. However USCF rules will govern the games. For the past three years this event has averaged in excess of two-thousand attendants during the three days. Should you be in the area any of the three days bring your boy or girl in for some chess games. No one is held to a game schedule or minimum number of days. If a young player can compete in only one or two days and that player's score be entitled to a prize it shall be delivered. On! Yeah. Glidden is the director. The other events going on at the same time include: Storytelling - Plays - Puplet Shows - Music - Dancing - Miscelleanous Games & Contests - Animal Demonstrations - Jugglers - Magicians - Fortunes Told - and many more.

Portland Tournaments by H.W. Russell

In my conversations with Bob Mitchell and especially Busty Miller, it has become apparent that many people have several false impressions about myself and the Bast-West Tournament Association. Then I came to Portland about a year ago, Iwas looking for not only the local chess club, but announcements telling me where I could play tournament chess. After six months I realized what a terrible shortage of USCF tournaments or for that matter, tournaments of any kind there was in the Fortland area. Somebody should have been doing something. I had considerable experience back east. My tournaments in the New Haven-Stanford-New York area attracted the likes of Benko, Valvo, Hoffman and Hengarini.

So, I decided to run tournaments in the Fortland area. I also had been involved with the Fortland State University Chess Club and Imew they badly needed equipment. I rade them an offer. Fo raise money for the club, I would run two tournaments at P.S.U. Thus originated the PSU Open 31 and 32. I donated large amounts to the club after each tournament and

Although only a disappointingly small field took part, some very interesting and exciting battles took place. Allen Hill, who has not played for nearly a year, started knocking off all opposition, including the top two rated, only to be upset by Barry Thorvardson in the last round. Bob Zuk had Hill all but crushed in Round 4, when he lapsed for a moment and walked into a tricky co-mbination set by Hill. Barry Thorvardson, as already stated, pulled the big upset by dropping Hill in the last round to take 3rd on tie break with an excellent 4 - 1 score. Gunter Schatzberg, a new comer to the tournament scene looks like a real treat in tournaments to come, for example his win over Krzyzowski in round 3. Following are two games from the tournament.

LETTER'S TO THE EDITOR cont from p 8 col. 2 they now have available funds for equipment. But, until now, most people did not know about this arrangement and it looked as if I was putting on these tournaments for my own "fun and profit." Hardly. After all expenses, I was \$3.80 in the black.

I do not favor tournament's where one has to bring one's own set; not only is a shortage of sets possible (though not probable) but the tournament room tends to become sloppy. Accord-ingly, I purchased several dozen sets to be used in the tournaments beginning with the Portland Independence Day Open. This added expense precluded any large prize fund. Therefore, a modest (\$50.00) 1st prize was set and six subscriptions to "Chess Digest" were given out. (Chess Digest is an excellent magazine which deserves the support of every American chess player). Beginning in October (the Portland Fall Open) a much larger prize fund will be established. In other words, as soon as I have not lost a great deal of money, and even paid for most of paid for most of my equipment, I am in a position to provide the chess playing public a larger prize fund. This should occur in the Portland Fall Open.

Portland C.C. vs. Hillsboro C.C.

On June 20, the Hillsboro C.C. played the Portland C.C. in an 11 board match, one game per board. Point were 15 for 1st., 14 for 2nd. etc. The results as follows:

	Portland C.C.	82	Hillsboro C.C	-28
1.	Carl Rurnham	0	C. Hoggatt	15
2.	Larry Scott	14	Mi-Montchalin	0
3.	Bryon Perala	13	Charles Stevens	0
4.	Cy Friedman	12	Robin Shuler	0
5.	Jim Bryant	11	Karl Granat	0
6.	Duncan York	10	Him Snowden	0
7.	Steve Loyland	9	Pat Maloney	0
8.	Jim Blackwood	0	Byron Travis	8
9.	George Coggins	7	Ron Scott	0
10.	Newell Wagner	6	Bob Larrance	0
11.	Tim Allen	0	Phil Irwin	5

The following information on this event was furnished by Pat Maloney. The Hillsboro C.C. had high hopes of a slim victory but within an hour and ½ of play the only board for Hillsboro that had a sure victory was board 8 played by Bryon Travis. Only three boards had even chances, boards 1, 3, and 11.

Before the match the first sign we had that things might not go our was was a list of names in the Portland C.C. on the blackboard of those who had voluntered to play in the match. Even though the Portland C.C. wasn't using its best ll players, no one on their team had any thoughts of losing. The Portland C.C. overconfidence was so great that we were overwelmed from the start. It wasn't that the Portland C.C. was fighting mad, they just took us for granted. This same slack attitude by the club and its officers could account for why very few of them are members of OCF and why they are in an organizing slump.

... Interesting highlights of the match.....

The average age of the Portland Chess Club is around 50; while Hillsboros is around 20.

Upon entering the Portland C.C., Tim Allen stated that we must be a High School Team. Tim Allen later lost to the only Junior High player on Hillsboros team, Phil Irwin!!! At one point during the match, the chair that Duncan York was sitting on gave out. The damage wasn't more than what bailing wire couldn't fix, however anyone playing at the Portland C.C. does so at his own risk. The Portland C.C. has been in continual operation for 50 yrs., and is second only to Seattle C.C. in its dust level. Next match is scheduled for Oct. 17, 1970.

Notes from Dave

Please send me all the club news, and not to the NWC editor. This makes his work easier and then I know what is going into the column. Also, how about some club news other than the top ten, although that is interesting. What is your club doing? Meeting time and places. What activities does your club have, besides playing games each week? How about the clubs in Idaho and British Columbia. Lets hear from you. When school starts in Sept. lets hear more from the public schools, and colleges clubs. Lets make this column grow and be real interesting.

Peter Biyissas, obviously the strongest junior of the area, easily won the 1970 Washington Junior. Peter is rated 2287 in the July issue of NWC.

Another resident of British Columbia placed second. Jon's single loss was to the leader. You can expect to see Berry in many more junior tournaments. He is sixteen years old.

Mike Montchalin Jr. and Robert Ruotsalainen tied with Steve Thomas for third place.

Time control was 50-2. Tim Kauppila directed.

Letters to the Editor

Continued from page 9 column 2

In short, no one is taking advantage of anyone else. While I am not intending to provide chess entertainment out of my own pocket for any great length of time, I feel that harsh criticism without knowledge of any facts is unjust.

This is not meant to be pessimistic. On the whole, the tournaments have been well received and it looks like we shall continue to run bigger and better tournaments in the Portland area for some time to come.

One more note: several people have wondered whether there will be an Oregon Open Labor Day weekend. This event is supposedly being run by other organizers. Bob Mitchell and Rusty Miller have both asked if I would assume the responsibility for the tournament if "worse came to worst," and I gave them a qualified yes. That is all I know about the tournament.

Mrs. Esther Schrader (Address listed above)

We have a double-decker for you this month, due to the combined June-July issue and a natural inclination on our part to procrastinate too long for the June-July deadline with a second column and problem.

At long last, we are ready to unveil the solution to No. 5, which stumped quite a few faithful solvers: R-Q2. Only nine solutions were received, and two of those were incorrect: P McCREADY (5), D NEUBAUER (L), J WEIKEL (5) (Ore.), M HORMAN (3), F. JARMON (5), H MOYE (-1), L PRATT (5), A WHITE (5), J WISE (O) (Wash).

Sorry the deadline was so tight on No. 6. Most of you basely received your NWC in time to work on the problem, and so we have pretty much ignored postmarks on the solutions received. The correct move, of course, was:

B-Qh. Thirteen solutions were received, and only one was incorrect: C BALLANTINE (5), P McCREADY (6), D NEURAUER (5), J WEIKEL (6) (Ore.), N HARDY (h), K HOPPE (5), M HORMAN (h), R JARMON (6), K JOINER (1), L PRATT (6), R RUOTSALAINEN (5), H THOMPSON (2), A WHITE (6) (Wash.).

PLEASE NUMBER YOUR SOLUTIONS FOR 7 & 8 -- GOOD LUCKS

COMMENTARY

In addition to the events covered in this report, I have still to rate the 1970 Oregon High School Chess Championships and the New Westminster Chess Club Spring Tournament. I just didn't have time to get everything done this month.

With the number of tournaments being submitted these days, the time involve d in this job is getting out of hand. I snent over 20 hours rating this month's events. In order to cut down on the time, I'm going to have to require that tournaments be submitted on a standard form from now on. If you want a supply of forms, just write to me and I'll sand you some free of charge. Tournaments submitted in a non-standard format will be returned.

PLEASE, MR. GLIDDEN, YOU'VE GOT IT ALL WRONG By MARTIN E. MORRISON Director, United States Chess Federation Columnist on Chess Laws and Tournament Direction

You charged, Mr. Glidden, in the "Bits and Pieces" section of your "Oregon Chess News" appearing in the June-July Northwest Chess, that I claimed copyright on the FIDE rules interpretations or at least made by own personal versions seem to be an FIDE product. Nothing could be further from the truth.

I quite clearly stated in my introduction to the Interpretations what the situation is. The FIDE Interpretations are contained only in a French version. My copyright is only on my English translation of that version. Of course, the original French version has already been copyrighted by the FIDE. Secondly, I claim no official FIDE sanction for my translation. Again, I clearly stated in my introduction: "This (is an) unofficial translation."

You also malign my motives most unfairly, Mr. Glidden, by implying that I copyrighted my translation to make monetary profit. As a matter of fact, the idea of copyrighting the translation was not mine. I finally agreed to do so only to protect myself from having anyone tamper with the translation and then publish it under my name.

As for the financial angle, in case you don't know, Mr. Glidden, I don't make a cent from any of the columns I write for Northwest Chess and four other US chess publications. I could not agree with you more that all chess players are entitled to full and accurate information about chess laws and tournament direction, and for this reason I spend many unpaid hours every week collecting, composing, and typing material on this subject to help the players and tournament directors who have expressed great interest in and need for such material. I certainly cannot make my fortune by selling copies of my translation at 20¢ per copy, which only covers printing and postage costs. Permission to publish the translation is readily given -- free for the asking. Under this arrangement three US chess publications have already published it, and soon it will be issued by the British Chess Federation, to help our Englishspeaking confreres across the ocean. Once again, I shall get no money whatsoever from these publications.

Please, Mr. Glidden, you've got it ail wrong.

none of them played each other, or even someone rated higher than myself. Acers (2212), drew with Blohm (2167), drew with Osbun (2206), and lost to Kaplan (2408) and finished 2 point out of third. Luck?

Monterey International Open, Jun 27 &28, 1970 Perfect scores to Larry Evans, Julio Kaplan, and Frank Thornally (5-0). 156 players in a one section week-end Swiss. The director used two sections in rounds one and two in an attempt to reduce the number of perfect scores. It was nice to play a class A and an expert right off but the third round was a joke with a number of class B & C players having perfect scores. Top rated players had only one rough game, round five. All Cal. tourneys I have attended this year have exceeded by far the number of partic-ipants expected. I don't understand why more promoters don't announce two or three sections in advance with a clause explaining that it will be run as a one section tourney if fewer players arrive.

At Monterey I lost to Larry Evans (2560) and finished with 4-1, a point out of the expert's prize. Long before this happened time it occurred to me that when internationally titled players are at a tournament it is a casting with at random of a given number of losses among the other players. It is nice to play a very strong player but to why should it cost you all chance at a class prize? (This only applies to two and three day tournaments.) It appears to me that there is a way around this problem. From the time in a tourney that a player elgible for class prizes plays an IM or IGM he could be given prizes prays an in or ion he could be given a point for purposes of pairings and class prize awards. Only. Not for final standings or place awards. If an upset occurs the point is not added, of course.

The answer is yesm, but I would not play regular lines v.s. d4 because I think blawk's tournament chances are negligible. And I planned (correctly as will be seen) on Evans minimum seizing the first opportunity to trade into an early endgame where his chances of getting upset are theoretically greatly reduced. (After the game Evans mentioned that he intended 55, b7 Kb8 56.Kb6 h4 but now saw \$7.gh g4.)

Why do most NW TD's continue to be backward when pairing adjourned games in the following round? To pair them all as draws is ridiculous. (See Larry Evans in May NWC on this.) The most satisfactory method that I've seen used is to have the TD ask the player's involved what result they are playing for and pair them thusly. If both player's say draw that is the game result.

A TD should not be given discretionary power carte blanche but there are many occasions when a firm hand is in order. At Monterey recently I adjourned a game in round two(against J.). J. did not show up in round three, giving no notice. The adjournments were scheduled to be played at 7 a.m. The TM wanted me to arrive then and forfeit my opponent on time! At 9 AM I was slated to play Larry Evans. Finally he agreed to call me if my opponent showed up. (He didn't.) Even that is ridiculous as I had to look at the adjourned position (I was an exchange ahead.) and lose sleep. A player who shows the lack of consideration for everyone involved that J. RIMMENT did here should be forfeited out of the tournament immediately. NUMBERNE If he then returns with a good reason for his behavior he could be readmitted. Usually there is no reason. Some organizations fine individuals for acts like this.

High School in Chess

1970 Top Coaches (as polled by prep eds.)

BY HOWIE CHIN

#1) Mr. Wm. J. Lathrop (Olympic Jr.): Mr. Lathrop is voted as the State's #1 coach! Here's why: He arrives to school 7:30 every morn to conduct chess lessons. Then, from 3-6 PM, he's conducting lessons again—not only for experts but for slow learners, too. His rewards have been amazing—he leads the State's only junior high to play in a chess league; he took his team to take "Runner-up" in the Puget Sound League, and brought his youthful team to the State Tournament.

#2) Mr. Spencer Grendahl (Bellevue High): This teacher knows his chess theory. (Ed.Note: I've lost games to him!) And he coaches his team with it, too. With young material, consisting of sophomores and juniors, he led Bellevue's "Wolverines" to capture the Kingco League's second spot.

#3) Mr. Stephen J. Christopher (Bethell High): A dedicated coach, Mr. Christopher is an avid teacher of chess theory. With his own"professional" playing experience, with tourneys like the U.S. Open, he has been able to convey his experience and knowledge to his team, the results: a new Kingco League Champion.

#4) Br John C. Hunt (O'Dea): The O'Dea "Irish" got a lot of practice and funds with Br. Hunt. His school room is used during noon lunch and after school practice. Two to three hours a day are dedicated by Br. Hunt--and all to the training of the "Irish" team, which took the N'west Metro League and 6th at State.

#5) Mr. Stan O. Seely (Auburn): Most of the Puget Sound League organization and team practice schedules are attributed to this teacher. A young, energetic and compatible teacher, he has the chess knowledge, and the material to coach a championship team next year.

t6) Mr. Howie Chin (O'Dea): Responsible and tired for coaching tactics and theory to his O'Dea men, he was able to build an above average team with below average material. With heavy activity, in practice and an over-worked schedule, he was able to compensate for

15 O'Dea's weaknesses.

In the 1970 Washington-Oregon Match, Gene Webb scored the third point for Washington with his win from R. Davis on Board 9. Jerry Weikel put Oregon on the scoreboard with two wins from J. Hanlen. The score is Washington 3, Oregon 2.

We had several promotions this month. Weikel made the Top Ten, LaVergne invaded class "AA", D. McCord and R. Shuler entered class "A", and P. Irwin and D. Engelhard entered class "B". Several players are getting close to promotion and we will try to acknowledge all of you when you do FINALLY make it. Congratulations to the above players!
